Soft: Strong Communication, Adaptability, Effective Time Management, Attention to Detail, Innovation

WORK EXPERIENCE

Experience Design Intern (Tech)

May 2026 - August 2026

Truist Bank, Charlotte, North Carolina

- Designed end-to-end user flows and customer journeys for digital banking products and account-opening experiences
- Built Figma wireframes and prototypes leveraging enterprise design system standards and UX best practices
- Synthesized moderated UX research into actionable design insights
- Produced accessibility annotations and design docs for seamless developer handoff and inclusive UX
- Aligned the Acquisition Design and Digital Commerce team on a channel driving 12% of new-to-bank clients

Business & Technology Teacher

January 2023 - June 2026

Saint Brendan High School, Miami, Florida

- Taught Web Design and Game Programming, including HTML, CSS, FTP, search engines, and core coding concepts
- Guided students in projects to design web pages and develop games with focus on usability and creativity
- Delivered honors-level Business Law and Management, covering legal systems, contracts, leadership, and ethics
- Incorporated emerging tech trends and UX/UI principles to prepare students for higher education and tech careers

PROJECTS

Product Designer & Developer, FirstPass

August 2026 - Present

- Design an employer-first career web application that streamlines candidate discovery and hiring connections
- Construct candidate and employer flows for profiles, search, interview invitations, and timed responses
- Develop and deploy the full-stack application using React, Django, and Django REST Framework

UX/UI Designer & Developer, Pawse

November 2025 - November 2025

- Co-designed a responsive, mobile-first weather app for safe dog walking conditions
- Designed clear, user-friendly interfaces that translate real-time weather data into quick walking recommendations
- Co-developed the front end using HTML, CSS, and JavaScript, turning the shared design into a functional, responsive experience

Lead UX/UI Designer, KeyBeauty by Yeny

September 2024 - October 2024

- Created the website's wireframe, UI layout, and final design, delivering a cohesive and visually engaging product
- Partnered closely with the lead software engineer to ensure the website was both efficient and aesthetically appealing
- Maintained client updates to ensure alignment with project goals throughout development
